Date of Birth : 15.3.2004

PROFESSIONAL PROFILE

Computer Science Engineering graduate focused on software development, data science, and AI/ML. Proven ability to transform complex ideas into functional web and AI applications. Quick learner with strong problem-solving skills. Highly adaptable to new technical tools.

Feature Projects

MIIT Students Grading System

Full-Stack Developer

- Built an automated system to calculate and display student results.
- Used Django with a database workflow to improve accuracy.
- Eliminated repetitive manual calculations.
- Developed interfaces, handled testing, and wrote documentation.
- Stack : Python (Django), HTML, CSS, Bootstrap, JavaScript, MySQL

Smart Travel Recommendation System

Software Developer

- Built a system to suggest travel options based on user preferences.
- Structured destination data for clear and relevant suggestions.
- Designed a simple user workflow for entering travel choices.
- Stack: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL

Smart Library System

Full Stack Developer

- Developed a digital platform to manage book records and user access.
- Implemented database functions for organizing records and borrowing processes.
- Built responsive web pages and handled form data storage.
- Stack: PHP, MySQL, HTML, CSS, Bootstrap, JavaScript

Age and Gender Prediction System

AI Developer

- Created a real-time webcam system for demographic classification.
- Used OpenCV for live image capture and preprocessing.
- Integrated a CNN-based deep learning architecture for predictions.
- Stack: Python, OpenCV, TensorFlow/Keras, CNN

EDUCATION

B.E (Hons) in Computer Science & Engineering

May 2022 — Sep 2026

Myanmar Institute of Information Technology

- Expected graduation : 2027

SKILLS

Programming Languages : Python, JavaScript, PHP, Java, Kotlin, TypeScript, C, C++, C#

Frameworks & Web : HTML/CSS, Bootstrap, Django, Laravel

AI & Computer Vision : TensorFlow/Keras, OpenCV, YOLOv7, CNN

Databases : MySQL, Mongo DB, PostgreSQL, Microsoft SQL

Technical Tools : VS Code, Jupyter, Anaconda, GitHub, Power BI

Soft Skills : Problem Solving, Critical Thinking, Adaptability, Team Collaboration, Time Management

Languages Spoken : Myanmar (Native), English(Upper Intermediate)
